

## **Plasma Device (Blue Tube) - Crystal Tip**

### **Zero in with Our Crystal Tipped Blue Tube.**

Our Blue Tube with the Crystal Tip holds within it 4 separate Nano-coated copper coils with a center nano-coated 14 gauge copper wire that has a split top that acts as a balancing mechanism.. The end of the tube has either a crystal tip or plastic bead on the bottom. The Crystal tip is pointed and used as a concentrated point of focus when moved very lightly on the surface of your body. The coils are also dipped in the same plasma solutions that are used in Miracle that produces an even larger field that also radiates out of the sides of the Blue Tube. The Plasma Device produces a plasma field that has the ability to bring balance to the body.

#### **Contents:**

Nano-coated 14 gauge copper wire, 14-18 gauge copper coils dipped in the same plasma solutions that are used in Miracle.

#### **Size:**

Pen: 7/8 " w x 6 1/2" l

Cloth Case: 2" w x 7 1/2 "l

#### **Weight:**

3 oz

#### **Directions - How to Use:**

Allow yourself to relax. Simply hold the device with the end pointing to the area you're working on, just on the skin or on a piece of clothing over the skin. The plasma field travels down the center of the device through the bead at the end, to the body. □

Begin by using for 5 - 10 minutes then wait for 15 minutes and use again. Repeat until you feel the field coming from the device. You might feel a slight pulsing, a

tingling or slight heat. The more you use the device, the stronger you'll feel the energy and the better the results. □□

You'll also feel the energy field in other parts of the body from where you're pointing the device, since the field radiates and goes to where it is needed. Work up to longer sessions per day, as you feel comfortable. For long term issues, work up to 2 - 3 hours per day or longer. To work on head areas, choose the associated meridian points or acupuncture points on the hand or foot and apply the device to that area.

If working on long-term conditions, you must continue to use the device even after you've had positive results, for 3 - 6 months, (at the same times if you can). □ This allows the new information to be embedded into the structure of the body and neurological system of the body.

\*The plasma field also radiates out of the device so it is beneficial for whoever is holding it to wrap your hand around it to receive that field also.

Care:

Wipe with a soft dry cloth.

Caution:

**\*PLEASE TREAT GENTLY.**

**PLEASE DO NOT OPEN THE DEVICE, TAMPER WITH IT, SHAKE IT, IMMERSE IT IN LIQUID OR GET IT WET. TO NOT TOUCH THE CONTENTS INSIDE. IT IS IN A CONFIGURATION TO ALLOW THE ENERGY FIELD TO FLOW.**
